MODEL: DP-918VAD VARIABLE SPEED DRILL

The range of Eximus variable-speed pedestal drills manufactured in Taiwan, provide quiet and effortless drilling in a wide variety of materials. Unlike pulley-driven drills, our range of variable speed drills allow you to complete the drilling operation at the right speed to suit your application thus extending the life of the tool. With a 2HP 240v single phase motor, this high-performance drill is ideal for any home, school or industrial workshop.

KEY FEATURES:

- Rigid cast iron base and table enhance the overall strength of the drill
- Inverter driven head with a max capacity of Ø32mm
- Integrated thread tapping with auto reverse max capacity Ø19mm
- Fine feed handwheel for precise drilling to a specific depth
- Spindle power down feed 3 steps
- Adjustable accurate depth setting
- Large diameter steel column eliminates flexing even at max capacity
- Adjustable spindle guard with micro switch for operator safety
- Integrated coolant system with adjustable hose
- No volt release, overload protection with twist to release emergency stop
- Rack and pinion to wind table up and down
